**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Comcast was charging me \$200 per month to watch old reruns of Survivorman. I had turned to cable because AT&T phone line service had so much noise I couldn't hear what was being said. When I complained they said it was my in house wiring & they would bill me to come take a look. I proved to myself that it wasn't in my house wiring. I then found out about Sonic from a friend & signed up. They made AT&T fix the broken underground wire so now have perfect phone service that works even if power is out & making emergency 911 calls they immediately responded to this address. I have quality wi fi & abandoned cable completely. I will never do business with AT&T or Comcast again. I can get service issues answered immediately when call Sonic & talk to a real local person who has knowledge of the problem. The FCC's priority is to protect me not those giant corporations who say copper line customers like me don't exist.
